1.5 Laws of exponents with integer exponents, logarithms

To write 3^8, press 3, $\boxed{\wedge}$ and 8. The result should be 6561.

The natural log can be accessed by pressing $\boxed{\text{ctrl}}$ and $\boxed{e^x}$.

Powers of e are obtained by pressing $\boxed{e^x}$ (e is obtained by computing e^1).

The log base 10 is obtained by pressing $\boxed{\text{ctrl}}$ and $\boxed{10^x}$ and entering 10 as the base.

Powers of 10 are obtained by pressing $\boxed{10^x}$.
